

If you have a burning question about how to solve tedious, time-consuming tasks with a few mouse clicks, this article is for you. We'll give you 45 tools that can be used for anything from debugging code to taking your dog out of your front lawn. We know that there are too many tools and websites on the internet to keep track of all of them, so we've compiled a one-stop resource list. This list will provide you with shortcuts and make your life easier in general by automating some routine tasks around the house or office. So grab some coffee or tea, kick back in your favorite chair, and scroll down for hours of useful advice.
